

The Men They Couldn't Shave

Feastin' on the deserts' wilderness and no thoughts of hard rain or broken arrows or highways draped in velvet – no room to clear the dust from the eyes interrupting the rhythm of the flame. Step into the barren land of the brave and take part in The Men They Couldn't Shave – the Norwegian band melting Desert & Roll and fairytales & truth together with pure joy of creating music forcing the rainbows to dance. The Men They Couldn't Shave are out with their debut album "Ragin' Butterflies". And the critics are applauding the 12 songs from the dusty band from way up North. We are confident that you will applaud it too.

"Ragin' Butterflies is an explosion of joy, great playing and solid songs... All I can tell you is that this is a great record – I hereby recommend it.

"...We should consider this band to the title "Bruce Springsteen of Norway"
...I'm looking forward to the next album!

"It's a rare experience to listen to a band providing such enthusiasm in their playing – and where the producer has kept so much of the band's unshaven charm on the record."
Glaamdalen Newspaper – 5 out of 6 possible points

"This is quite an energetic acquaintance as they hit their songs with an admirable recklessness...they also got a bunch of good songs...the band's got a sincerity and exposes great enthusiasm."

"A ride like the one this band serves from one album to another is nothing less than very rare. Now, they are men who know what it's all about – and who provide great music."
Sarpsborg Newspaper – 4 out of 6 possible points

"When we think about how well Americana-music - Dylan, Springsteen, Young - sells in Norway, this band's future should look bright.... "
